EDUCATION

Biju Patnaik University of Technology Bhubaneswar, Orissa
Bachelor of Technology in Information Technology *Aug. 2011 – May 2015*

EXPERIENCE

Technology Lead Oct 2021 – Present
Infosys Limited *Toronto, Canada*
- Analyzed the client's business requirements with product owner and defined an end to end plan to develop the features.
- Created the architectural design and base solution which was used to further develop the complete solution to implement all features of product.
- Mentored and guided employees ensuring all were trained in product knowledge and capable of performing assigned duties.
- Upgraded the angular version from 8 to 13 which helped in faster rendering and improved the bundle size.

Technology Analyst Oct. 2018 – Sep. 2021
Infosys Limited *Pune, India*
- Developed single page application from scratch using Angular 8 JavaScript framework for Order management project.
- Designed & developed **Template based screen** framework using Angular "dynamic component loader" concept which reduced the screen development time by more than 50%.
- Created custom form components from **scratch** for the new UX design shared by client which not only improved the look & feel of application but also helped in reducing the bundle size.
- Reduced the Application's initial load time and improved the time consumption and memory usage by optimizing the content.
- Implemented authentication and authorization process in angular using JWT token which includes renewing the token silently.
- Integrated HERE map API to fetch the source and destination location of the order.

System Engineer Sep. 2015 – Sep. 2018
Tata Consultancy Services *Pune, India*
- Developed single page application using angular 1.3, JavaScript, HTML & CSS.
- Developed "High contrast and Font resizing" feature where user can toggle from normal view to high contrast or/and larger/smaller fonts which helps the visually impaired user.
- Created generic custom drop-down directive to show multiple information which got used in multiple modules of the project.
- Developed online close account feature for the user where they can fill up the form with required details and get the account closed which reduces physical branch overhead by more than 40%.

AWARDS/HONOR

- Delivery Ninja   - *Feb. 2022*
- Delivery Ninja   - *Feb. 2021*
- Insta Award   - *May 2020*
- Star of the month   - *Feb. 2018*
- On the spot month   - *May 2017*
